DISSEMINATION OR THE REPRODUCTION OF ITS CONTENTS IN ANY MANNER TO AN UNAUTHORIZED PERSON IS PROHIBITED BY LAW. REPRODUCTION OF THIS FORM IS PROHIBITED.

THIS IS UNEVALUATED INFORMATION

- 25X1
1. There is an ammunition dump at Toplak Castle, which is halfway between Spodnja Sv. Kungota and Gornja Sv. Kungota on the highway connecting Maribor, Ljutetschach, and Klagenfels. The castle is the headquarters of Yugoslav Border Troops for the Bravograd - Gornja Radogona sector. One Battalion of 400 to 500 men troops is stationed at the castle. In scattered positions in the woods surrounding the castle there are seven reinforced concrete pill-boxes which were built by the Yugoslav Fortifications Staff before the last war. These pill boxes, which are well-hidden in the woods and strongly guarded, serve as ammunition dumps for artillery, rifle and mortar ammunition.
  2. A tunnel in the woods, two kilometers southwest of the Pesnice railroad station on the Maribor-Spielfeld line, is used as a dump for assorted ammunition and light Czech Zbrojovka machine guns. The tunnel is 30 meters long and ten meters wide and is lighted. Several drain passages lead from the tunnel into the Pesnice River. The dump is connected by rail with the Maribor-St. Ilj highway. The tunnel is guarded by eight militiamen who maintain telephone contact with their Maribor headquarters. There are guard posts at the entrance to the tunnel and opposite the entrance, which is well hidden in the woods and is discernible from the immediate vicinity only. Civilians are forbidden access to the area.
